

14th January 2021 COVID-19 Update

We thank you for your patience and understanding whilst we navigate the current pandemic. We continue to regularly clean and disinfect our high traffic points.

MASKS~ If you have been in the Greater Brisbane Area* since 7.00am on the 2nd of January, please ensure that you carry a mask with you and wear this in indoor spaces where socially distancing is not possible.

- Hand sanitiser and hand rub procedures are in place. Hand washing is still the best way to avoid cross contamination – please wash your hands before entering the foyer at NFTI

The following existing procedures for Covid 19 will also remain in place:

Before your course:

- Our team will thoroughly clean our training room and foyer area
- Communal refreshments and water have been removed during covid 19
- Door Handles and reception will be cleaned regularly
- Class sizes will be reduced to allow for distance (Maximum 15 people)

Before attending your course:

- If you are unwell, required to self-isolate, been in a covid hotspot, had close contact with a confirmed COVID case or are awaiting results from a COVID 19 test **you must not attend the class.**
- Please notify us that you will be unable to attend, either by emailing us at admin@nfti.com.au or leaving us a message on 07 5443 1966
- Please refer to advice from the Government and the World Health Organisation if you are unsure about isolation or your symptoms

At your course:

- Please bring your own blue or black pen
- Please wash your hands thoroughly before entering the class (Bathrooms located near the lifts)
- Please observe basic hygiene etiquette (don't shake hands, keep your distance, cough/sneeze into your elbow or to a tissue)

Changes to Training and Assessment

- Disposable gloves (Nitrile) are available at the course for you to use when conducting assessments.

- CPR will be assessed with students breathing to the side of their manikins, rather than into the manikins during this time.
- Demonstrations of certain areas of the course will be shown in video format, rather than on training equipment to further reduce cross contamination possibilities
- Bandaging will be performed individually or on training manikins

We will continue to monitor any new changes on a regular basis and make the necessary amendments where required.

Warm Regards, The NFTI Team

* The Greater Brisbane region will be subject to new restrictions. This includes:

- City of Brisbane
- City of Ipswich
- Logan City
- Moreton Bay Region
- Redland City
